Circumcision rates are falling.

Find out why.

WHOLEnetwork.org

Did you know?

- No major medical organization in the WORLD recommends routine infant circumcision?
- That the tissue removed by circumcision is actually the most sensitive part of the organ?
- That a vast number of men wish they had NOT been circumcised as infants? (Google "foreskin restoration" to learn more.) Some men have even sued their doctors and won!
- Intact (uncircumcised) boys require no special care or cleaning? Just wipe and you're done!
- Circumcision rates in the U.S. have been steadily dropping for decades?

Today more parents than ever are taking their whole babies home!
